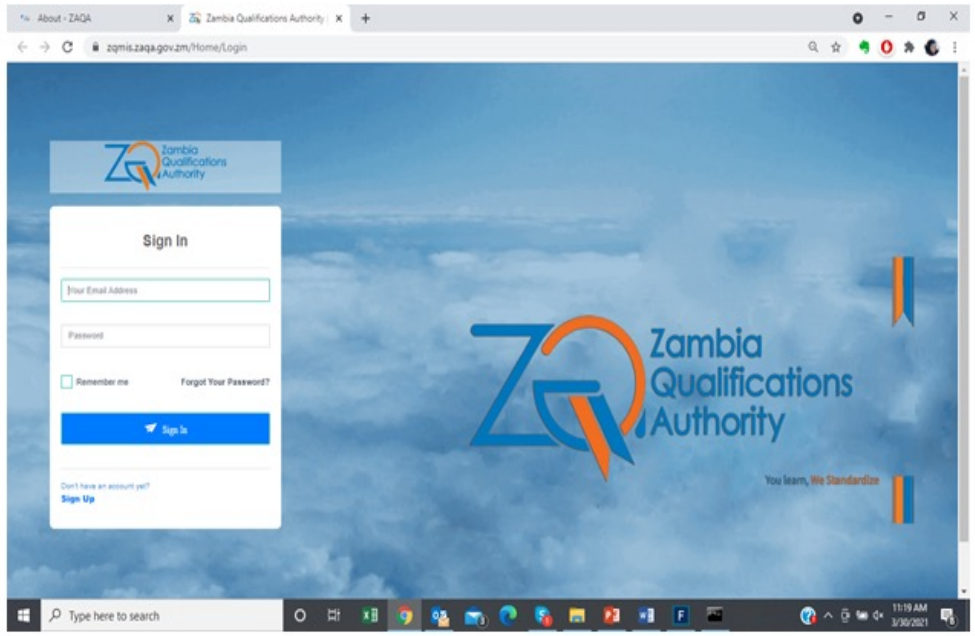
ACQF



ACQF
African Continental Qualifications Framework

Session 11:

Zambia Qualifications Authority (ZAQA) Qualifications Management Information System and the Electronic Certificate

Facilitator: Mirriam M. A Chiyaba

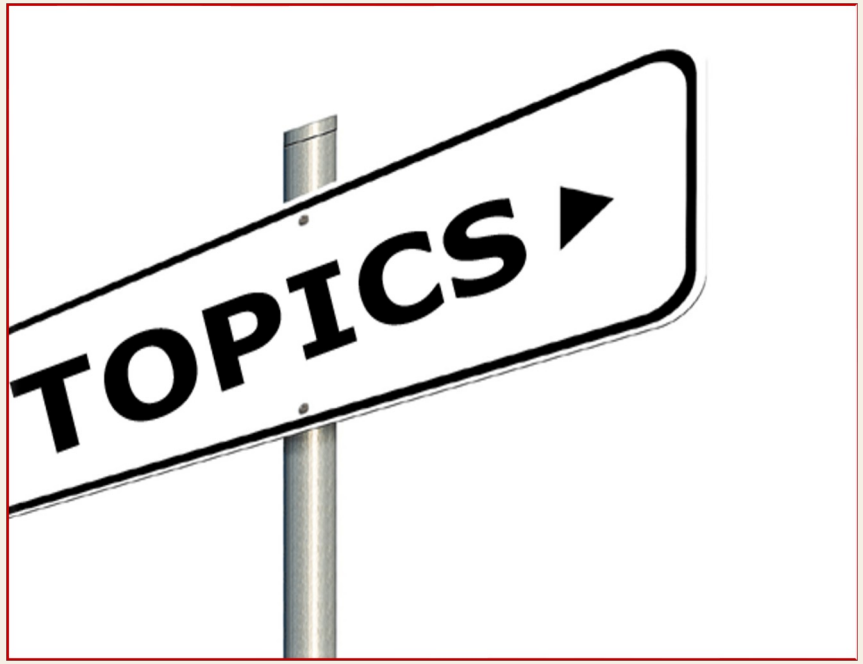
ZAQA uses the Qualifications Management system (QMIS) for validation and evaluation of qualifications which then issues electronic certificates

2nd ACQF Training Week 05-09 September 2022

01

Introduction

Topics to be covered



Participants will gain better appreciation of the following:

The Qualifications Management Information System

.Users

.Functions

The ZAQA Electronic Certificate

. Benefits

. Types

. Features

. Accessibility

ACQF

- **Zambia Qualifications Authority is responsible for the implementation of the Zambia Qualifications Framework**

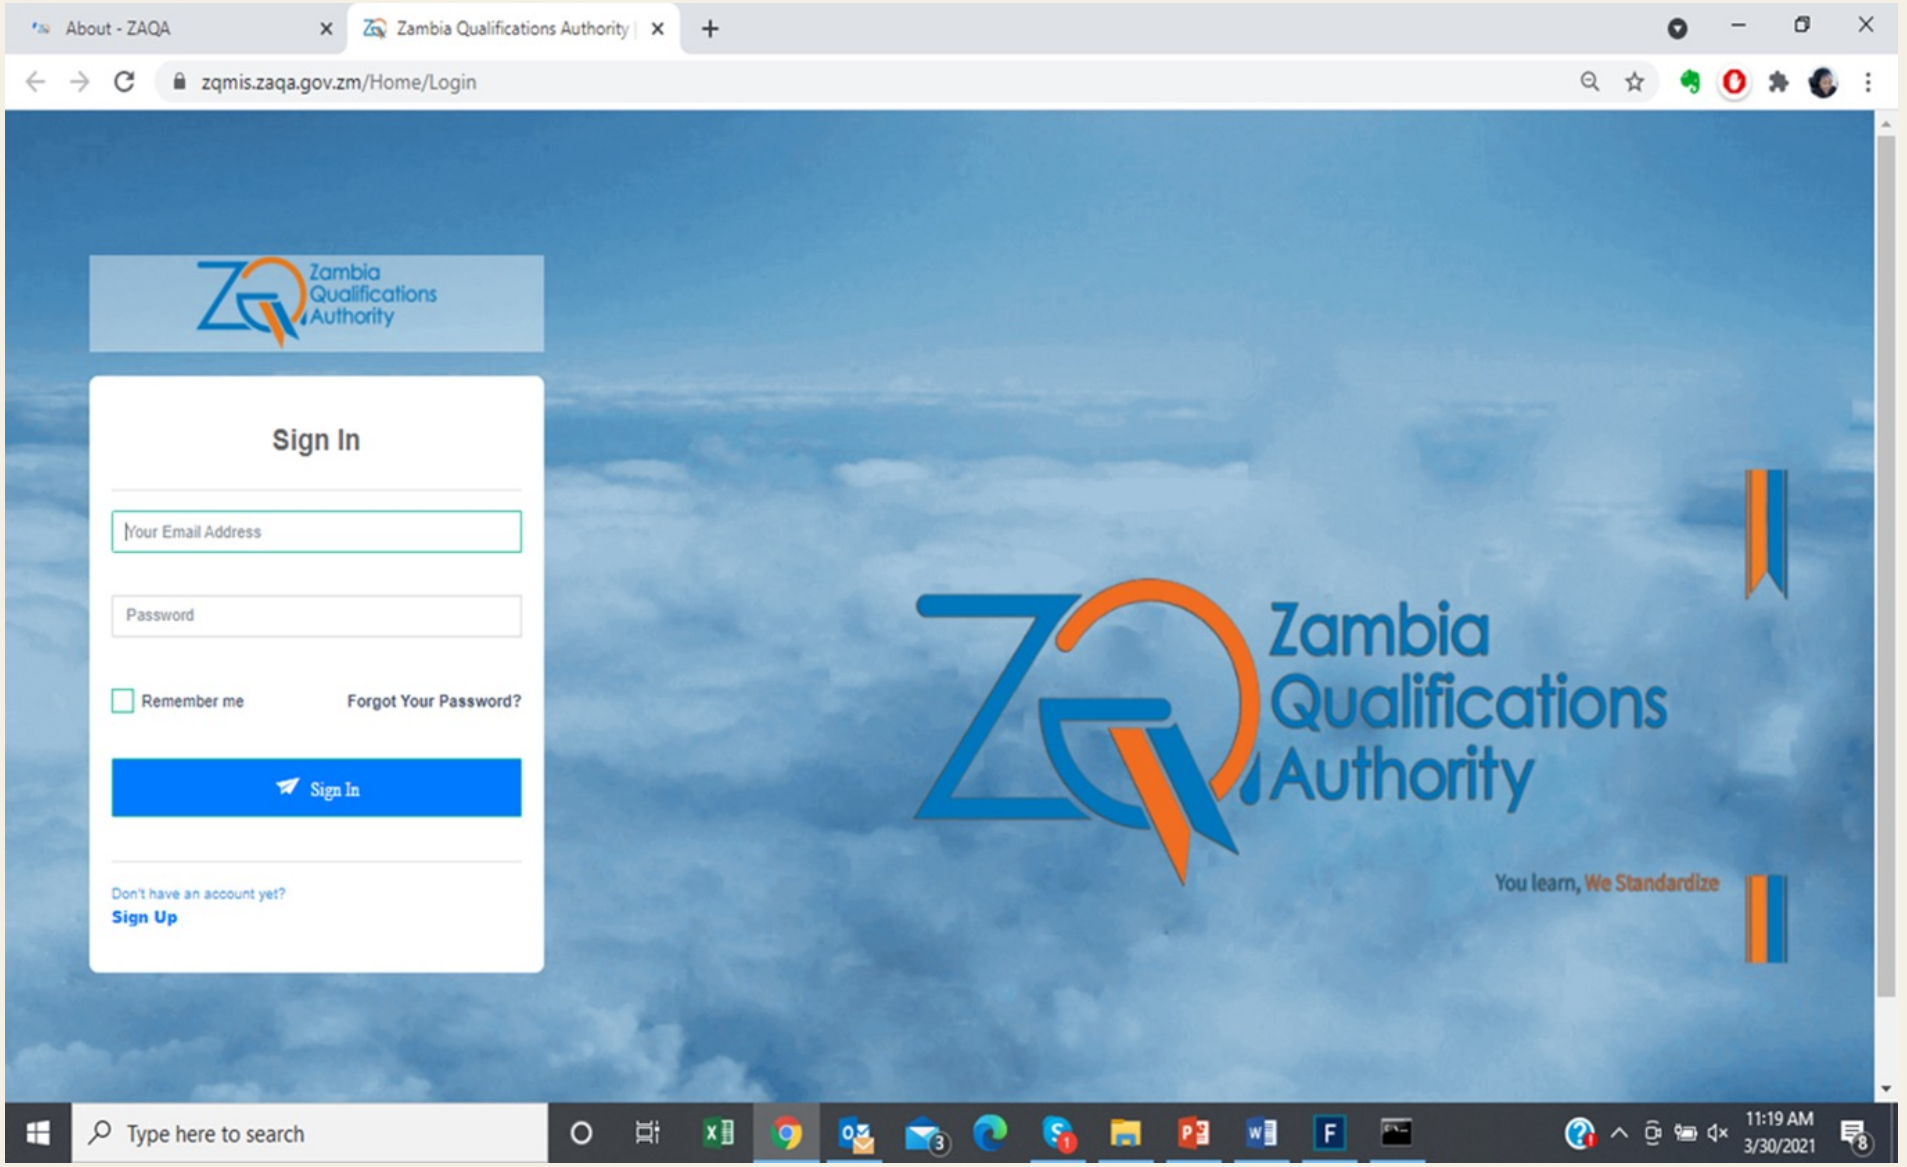
In 2016 Consultant designed the Qualifications Information System aimed at maintaining an integrated database of learner achievements and related support services.

Qualifications Management System (QMIS) has been implemented and issues Electronic Certificates (Privy Seal and TCCA Supported)

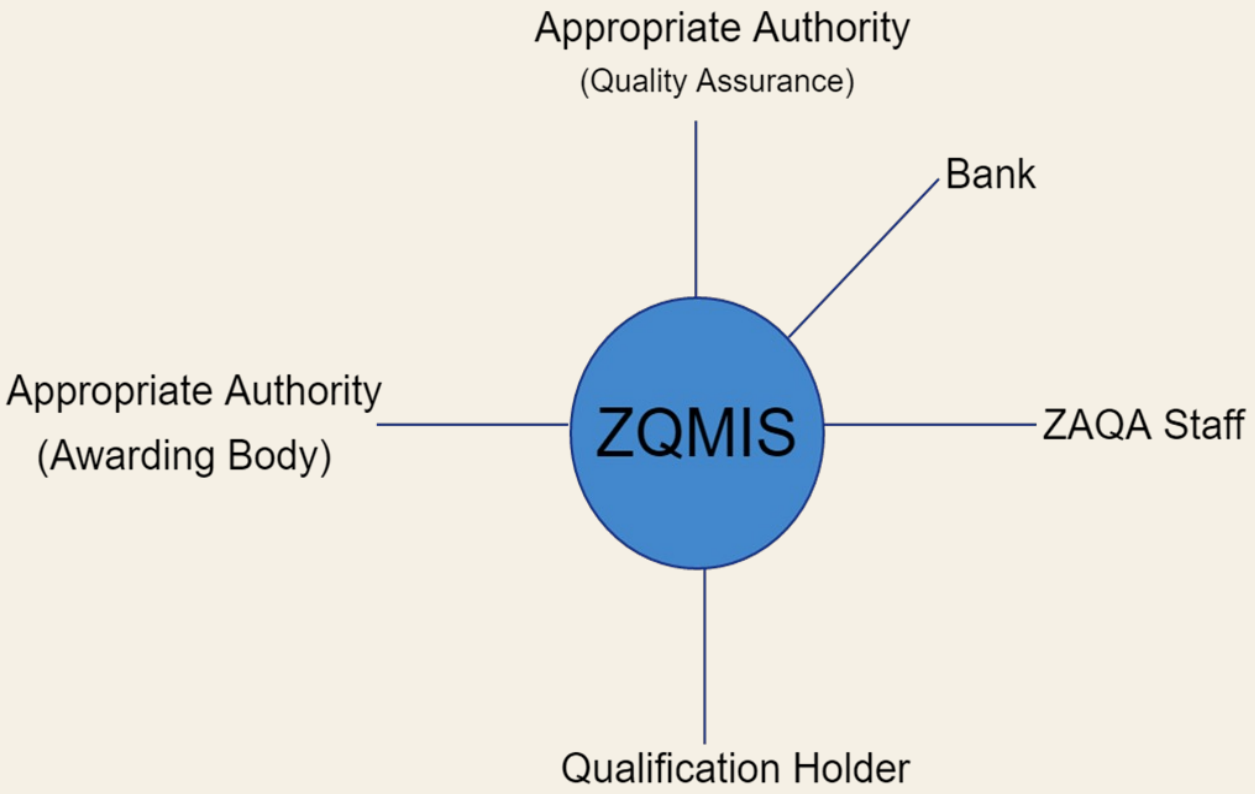
02

QMIS – An Overview

The QMIS Landing page



System Users



QMIS uses and accessibility

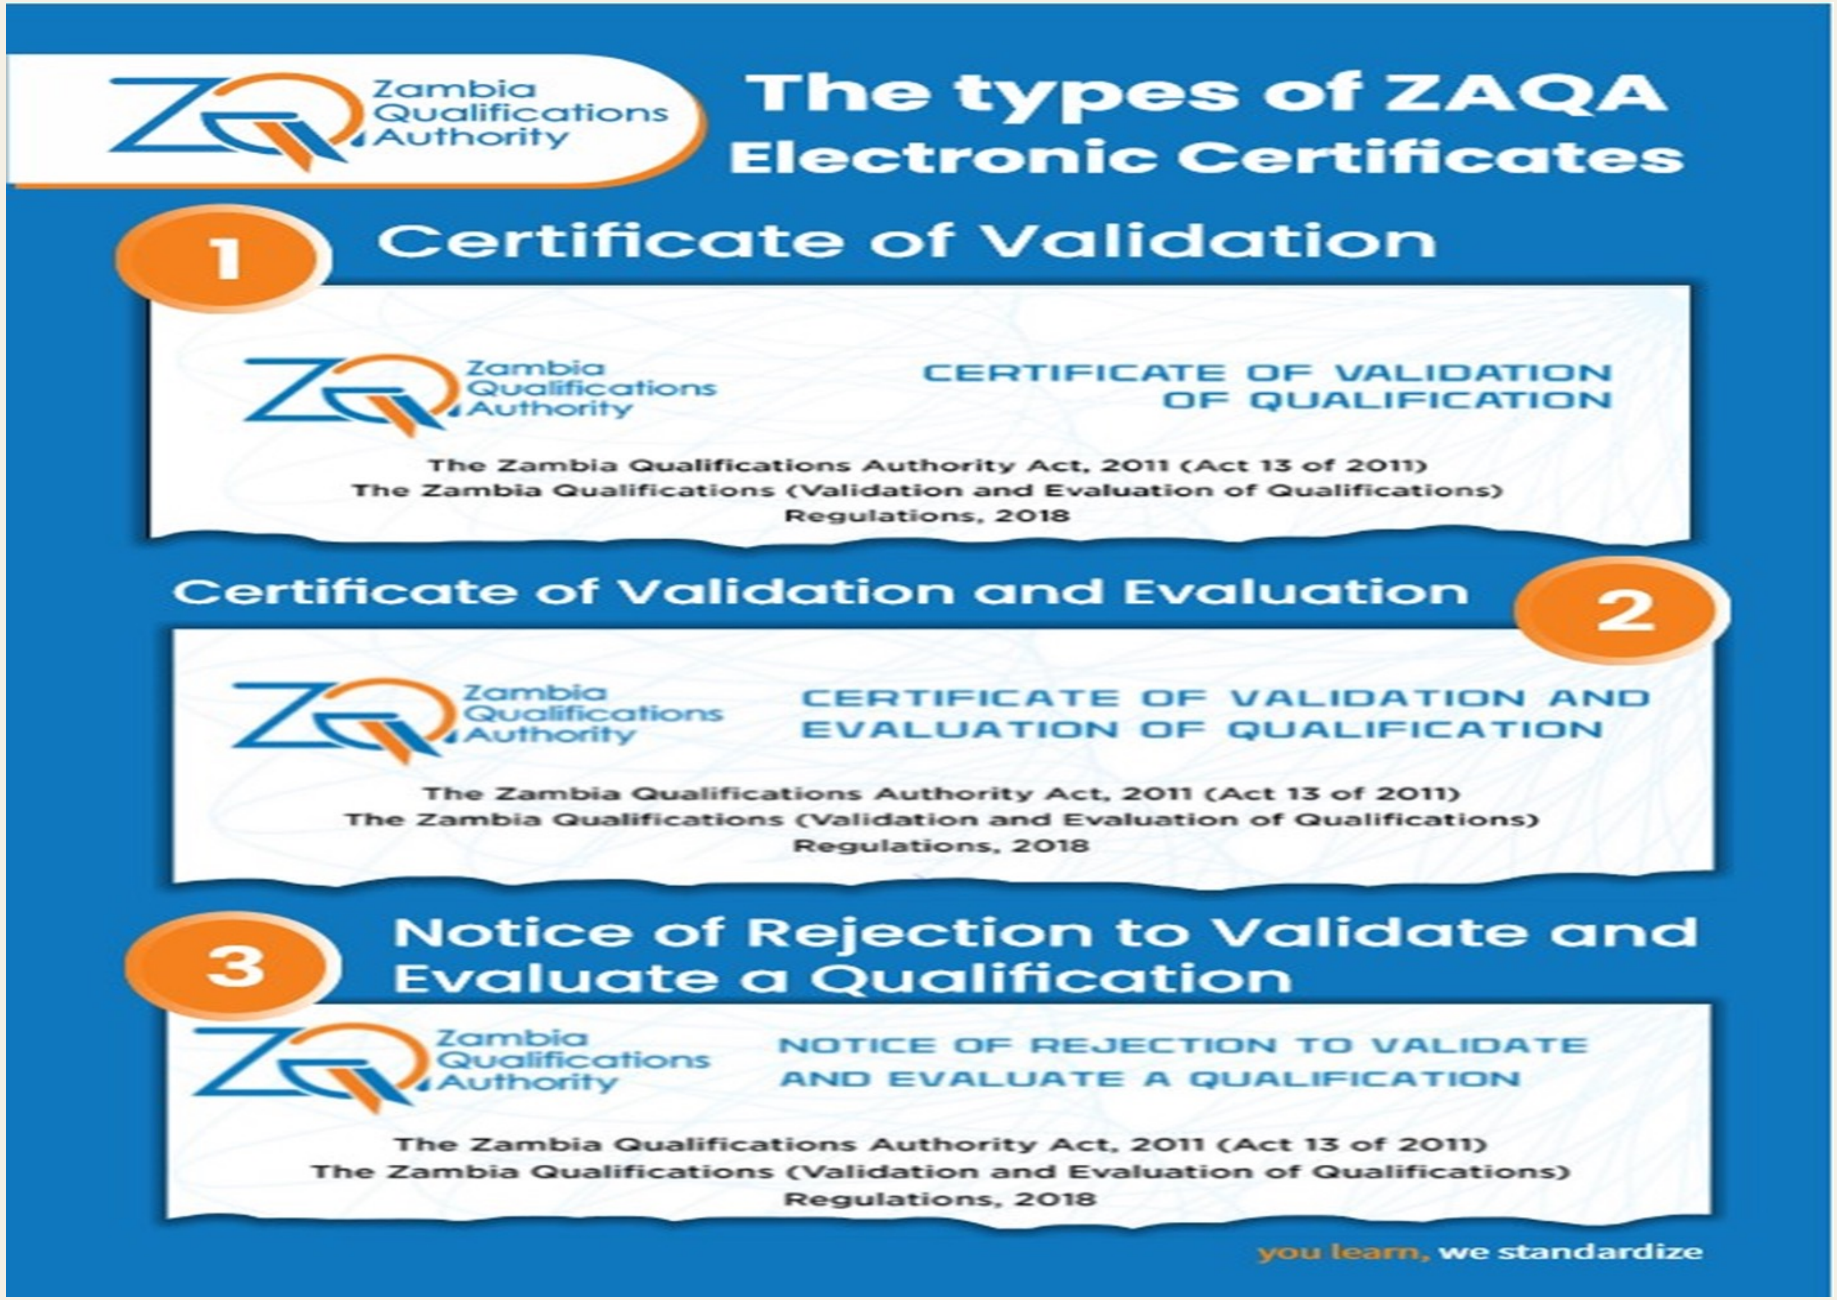
- Keeps a database of learner achievement records in ZAQA
- Enables users to apply for the verification and evaluation of their qualifications and the feedback is given as an Electronic certificate.
- The system is accessible from any where in the world from any smart gadget
- Payments can be made electronically

How to apply using the QMIS

03

The E- Certificate– An Overview

Once the process has been finalised the applicant is notified by email that their certificate is ready to be downloaded from QMIS



Zambia Qualifications Authority

you learn, we standardize

Features and Benefits of the E- Certificate

It has a digital seal to confirm the outcome of your ZAQA evaluation/ verification in real-time

It confirms the ZAQA feedback in real-time securely accessed from the QMIS

It can easily to shared and accessed from any smart gadget anywhere in the world

Assists to decrease real or perceived fraud, loss of certificates

ZAQA's digital certificates and seals cannot be misrepresented, they are revoked and re-issued automatically by reference to ZAQA's QMIS

04

Next Steps

- Improve the QMIS interface to ease the application process even further
- To add mobile money payment platform to increase the payment options
- Reducing on the use of paper for the approval process
