

Session 4

# GREEN SKILLS AFRICA

## Green NQF, RQF, ACQF

# CALL FOR ACTION

Presented by: Laurent NDAYWEL MBOSELE

2<sup>nd</sup> NQF Forum, Luanda  
05-06 September 2024

# MAIN QUESTIONS

What is the key importance of Green Skills in Africa ?

Are Green Skills essential for jobs, and in which economic sectors?

What is the necessity of greening schools, universities, institutes, and training centers?

## RECOMMENDATIONS:

It is urgent to introduce Green Skills into three essential and structuring elements of a National Qualifications Framework (NQF) :

a) **LEVEL DESCRIPTORS** in all National and Regional Qualifications Frameworks so that Green Skills become structurally present ;

b) In the **COMPETENCY AND TRAINING FRAMEWORKS** for Vocational Training ;

c) In the **CURRICULA AND CERTIFICATIONS** at all levels of the NQF, from basic to higher education ;

d) In **PLATFORMS AND MEETINGS FOR SHARING** and exchanging experiences, as well as through an awareness campaign on Green Skills.

01

**FUTURE PERSPECTIVES**

## AS TASKS TO RECOMMEND :

- I) A concise and harmonized mapping report on Green Skills in all interested African countries, especially active member countries of ACQF, based on a very simple survey;
- II) An ACQF Guide on Green Skills and Green NQF, and an application Handbook.
